Summertime, Summertime, Sum- Sum- Summertime! – As the weather continues to get warmer and summer vacations are planned, Satt Cat Bags can help with the organization required for traveling. Whether you are traveling to summer family celebrations or that trip to Mount Rushmore, good organization keeps the focus on your event, not on searching for something lost in the luggage or car. And whether you travel alone or with a group of 10, organization can truly help with keeping everything in its place.

Electronics Bag-

A GPS Garmin or Go Pro or any other technological toy needed for traveling needs to be safe and secure in a travel **Electronics Bag** when not being used. Sized to a custom fit, this thicker bag is lined with batting or flannel and closed with a coordinating cordlock. Of course, personalization is always available, and those tekky toys will be in a bag that is personal, clean, safe and out of sight when stored. Done!

Drug Bag-

Keeping prescriptions together and all in one place can be a challenge when traveling. A Satt Cat Bags **Drug Bag** made with a cordlock closure can keep all those medications together and secure. With the bag sized specifically to your containers and personalized, traveling just got simpler. Or how about having one for each family member to really be organized? Another option is to make the bag with handles, and it is then perfect for transporting prescriptions to a doctor visit, too.

Sunglasses Bag-

Keeping sunglasses clean and scratch free is easy with a **Sunglasses Bag**. Made with an extra thick, padded lining and if personalized with a special embroidery or name, this bag can be created to be as personal as those sweet sunglasses can be. Coordinated with a Shoe Bag or an Electronics Bag, the Sunglasses Bag could complete your personal traveling set of organizational bags!

Laundry Bag-

Laundry Bags by Satt Cat Bags have always been a popular bag especially as a gift for high school graduates that are heading to college. Nothing says "I'm home" like a college student walking in the door with a big bag of laundry. That same bag is also popular with traveling clients because it helps keep those clean clothes separate from the dirty clothes. Made of a durable twill fabric, these bags are rugged enough to handle the laundry and pliable enough to be stuffed into the trunk or folded and put away when not in use.

Party Idea No. 103

Little girls, sleepovers and dolls have been a classic combination of giggling fun for decades. How about a birthday party or sleepover that provides a doll-sized sleeping

bag for all guests? As the guests enjoy their own pillows, sleeping bags and treats, the dolls too can enjoy their miniature pillows, tiny sleeping bags and treats of play food. With either the guest's name or the doll's name embroidered on the outside, these "treat" bags can be a great souvenir of a truly special time in a little girl's life. Ah yes, little girls and dolls. What a sweet memory!

PLANNING AHEAD: Even though we are only heading into summer, it is never too soon to put in an order for Christmas. There are already four orders for 2017 on the Sitt Cat Bag Christmas shopping list. The benefit of this for you, the client is that it provides plenty of time for SCB to find just that perfect fabric or embroidery design that you might want, AND you can check that person off your shopping list by putting it on ours - Done!

Whether you are planning your summer trip, your upcoming family reunion, that fall wedding or Christmas gifts, Sitt Cat Bags can help. Each client's vision is unique and an absolute pleasure to create.
