Happy New Year!

– Amidst the snow and cold weather of January, a page on the calendar is turned and a new year starts. With that beginning we all make goals and resolutions, and Satt Cat Bags is no different. When the concept of Satt Cat Bags started in the Fall of 2011, making personal bags for people was the simple premise. Since then, the number of designs has expanded from 5 to 44, a website was launched and the details have become more meticulous and personal. The client base has grown as well as the requests and ideas. It has been an exciting and rewarding adventure bringing growth every year as that simple beginning of the calendar starts and a new vision develops.

 I am often asked “what do you have available in your sewing closet?” The simple answer is that I have whatever you want for your vision “in my sewing closet”. All bags are custom made specific for that special event or person in your life, not ready made. Personalization can come through fabric choice, favorite color or by embroidering a name or icon specific for the recipient. Some bags are more popular at certain times of year and here are some ideas thinking of that warmer weather that will eventually be coming:

Shoe Bags -

With days getting longer and warmer weather on the horizon, thoughts of travel and vacations come to mind. Satt Cat Bags can help keep those personal items clean and safe while traveling with custom bags made to hold shoes, jewelry, hair dryers or anything else that travels with you. And as with any bag, personalization can be made either through a fabric choice (maybe a golf print for those golf shoes) or a favorite color embroidered with your initials or name.

Bunny Bags -

Bunnies definitely come to mind with thoughts of spring and Easter, so why not have a bunny bag? These little bags have been popular for children to hold those special sweet treats associated with Easter, but could also be fun for an adult luncheon to add that special detail and whimsy....complete with a fluffy tail on the backside! The satin lining can be in any spring color that you might desire and for that matter, so could the flannel outside. And of course, personalization can be done as well.

Back Pack Bags -

At the request of various clients, Satt Cat Bags created a back pack bag to hold lighter-weight personal items. Being approximately 17-18 inches in height, it is perfect for children to have those favorites with them while they hike, shop, or just be kids! And like any Satt Cat Bag, it can be personalized by fabric color, embroidered design or even with a name or initial. Of course, back pack bags are not meant to haul heavy books and supplies, but rather those child collectibles like doll clothes or favorite little cars.

Satt Cat Bags is preparing a consolidated handout of all that is available for anyone planning a wedding. An exciting time with exciting opportunities! Stay tuned.

Satt Cat Bags was proud to again donate an ornament at the 30th Annual Quad City Arts Festival of Trees this past November and won the "Theme Award" for the Ornament Division. The festival theme for 2015 was "30 Years of Holiday Cheer". Satt Cat Bags entry was a mini wine bag that held a mini wine bottle – all made out of fabric complete with an embroidered tree on the bag and gold thread medallion on the bottle.

What a ride this has been! It is thoroughly a joy designing and creating every order for every client. As you the client have that vision for your event or party - don't worry!
